

The totally digital

Spectra-USB...

for complete comfort, clarity and true digital volume control - it just doesn't get any better!

Comfort, clarity and complete control for your digital transcribing future.

"I get greater clarity of phrases ... and, it's so much easier to understand soft-spoken sentences and the articulation of dictated words."

Destined to be the favorite of transcribers throughout the business world, the flexible, twistable construction of the lightweight Spectra-USB provides you with hours of total comfort.

The new Spectra-USB is a true plug and play performer!

- A Direct-Connect 2.0 USB plug ... no adapters required!
- A 10' cord for flexibility at the transcriber's station.
- True digital volume control, the sound solution to lesser than perfect sound cards in today's computers.
- Lightweight personal headset for today's on-the-go transcribers ... complete with a velvet drawstring pouch for personal storage.

Put the performance-packed, plug and play Spectra-USB to work for you ... today!

The tried and proven Spectra-USB gives you complete fatigue-free, day-long comfort, pristine digital clarity and true digital volume control - it's the right choice for you!
